

# SUMMER 1

## NURSERY NEWSLETTER

What we are going to learn all about ...

### Amazing Animals!

We are very excited to begin our new topic all about animals! The children will be exploring different kinds of animals and finding out where they live. We will begin to explore life cycles too!

To bring our learning to life, we will also be transforming our role-play area into a pet shop.

### Reminders

As we get ready for the warmer months, please ensure your child comes to school with appropriate summer clothing, including a sun hat and lightweight layers.

On sunny days, we also recommend applying sun cream before school. Please make sure that children have a water bottle.
